MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY AUGUST 2, 1951.

A total of 54 attacks with 15 deaths from Plague was returned from 15 villages in 7 taluks in 4 districts during the week against 33 attacks with 9 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 15 attacks with 6 deaths and 57 attacks with 21 deaths, respectively.

A total of 35 attacks with 12 deaths from Small-pox were reported from Bangalore Corporation and Gundlupet Town and from the taluks of Krishnarajapet, Krishnarajanagar, Maddur, Shimoga, Sorab, Srirangapatna and Srinivasapur.

Two hundred and fifty-five attacks with 173 deaths from Cholera were reported from Mysore City and from the towns of Bhadravathi, Bannur, Challakere, Channapatna, Malvalli, Ramanagaram and Shimoga and from the taluks of Bangalore North, Bangalore South, Bhadravathi, Challakere, Chitaldrug, Chamarajanagar, Harihar, Heggaddevankote, Hunsur, Krishnarajapet, Kunigal, Koratagere, Krishnarajanagar, Kankanhalli, Malavalli, Maddur, Mysore, Magadi, Nagamangala, Srirangapatna, T.-Narsipur and Yelandur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 303 (87 in hospitals) for 7 days representing a calculated death-rate of 20·2 (14·4 excluding hospital deaths) per mille of population (annual basis) as against 29·0 (20·9 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 2 under Cholera, 2 under Malaria, 8 under Other Fevers, 44 under Dysentery and Diarrhœa and 247 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 76 (28 in hospitals) for 7 days representing a calculated death-rate of 16·1 (10·2 excluding hospital deaths) per mille of population (annual basis) as against 19·8 (14·1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were : Cholera 2, Malaria 2, Typhoid 1, Other Fevers 8, Dysentery and Diarrhœa, 7 and All Other Causes 56. The reported mortality was very low.

There were 49 deaths (6 in hospitals) for 7 days from all causes in Kolar Gold Field equivalent to a calculated death-rate of 16·0 (14·0 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 1 under Typhoid, 5 under Other Fevers, 3 under Dysentery and Diarrhœa and 40 under All Other Causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. Paddy is being transplanted. Seasonal conditions are very disappointing as there are no rains. More rains are required urgently for the standing crops namely ragi, avare, groundnut, etc. Paddy and sugarcane are in good condition.

10. Public health is generally good except for the outbreak of plague at Ramanagaram Town. Necessary action is taken to prevent the spread of disease. Cattle are reported to be healthy except for the prevalence of Black-quarter among cattle at Ankanahalli, Kutigal Hobli, Ramanagaram Taluk and here and there in Magadi Taluk. Chapperoga is reported to be prevailing at Kolathur, Kasaba Hobli, Hoskote Taluk. Action is taken to prevent the spread of above diseases.

11. Water and fodder are available. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. *Seeds sown.*—Ploughing and sowing have been completed.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram and groundnut are reported to be withering for want of rains.

(3) *Crops harvested.*—Nil.

10. The rainfall was scanty and ill-distributed during the week. Fodder and water are available for cattle. Standing crops are in urgent need of rains.

11. People and cattle are reported to be generally healthy but for prevalence of small-pox in some parts of Malur and Cholera in Somambudi Agrahara village of Kolar Taluk. Preventive measures have been taken to check the spread of the epidemics by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Ragi, paddy, avare castor, thogari in parts of Tiptur; paddy, same and kulthi in parts of Tumkur Taluk are reported to have been sown during the week.

Standing crops.—Greengram, blackgram, jola, ragi, paddy, sugarcane and thogari are reported to be in fair condition, and they are in urgent need of rains. In Sira and Chiknaikanahalli the standing crops are reported to be withering for want of rains.

10. *Crops harvested.*—Paddy in parts of Kunigal and Gubbi Taluks.

Prospects of the Season—Fair.

11. *Public Health.*—Public health is reported to be generally good except for the prevalence of Plague in Chiknaikanahalli Town and Jayachamarajapura in Chiknaikanahalli Taluk, and Cholera in Siddapur village, Pavagada Taluk. Preventive measures have been taken to check the spread of the epidemics.

(2) *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Black-quarter at Kuppur village in Chiknaikanahalli Taluk. Needful action has been taken to check the spread of the disease. Water and fodder are available. Labour available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the Taluks of this District during the week.

Seeds sown.—It is reported that paddy was sowning: Yelandur, T.-Narsipur, Krishnarajanagar, Heggaddevankote and Nanjangud Taluks.

9. *Standing crops.*—Such as paddy, ragi, castor, togari, cotton, and sugarcane in almost all the taluks of this District are withering and are in need of urgent rains. But the standing ragi crop in some parts of Periyapatna Taluk is reported to have been affected by a kind of disease known as "ಮೊಜ್ಜೆರೋಗ". The Agricultural Department has been requested to take preventive measures to check its spread.

10. *Crops Harvested.*—It is reported that jola is being harvested in the taluks of Mysore, Chamarajanagar, Gundlupet, Nanjangud and Yelandur taluks and kar-paddy in T.-Narsipur taluk. The yield of jola is reported to be very poor due to inadequacy of rainfall and due to attack of pest on crop.

(1) Prospects of the season are fair.

(2) There was no rainfall in any part of the District during the week except in Krishnarajanagar and Hunsur taluks where too it was insufficient. The standing crops like paddy, ragi, avare and cotton in almost all the taluks of this District are urgently in need of rain.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is generaliy good except for the prevalence of Plague in a few villages of Heggaddevankote, Gundlupet and Periyapatna Taluks; and Cholera in a few villages of Mysore, T.-Narsipur, Chamarajanagar, and Krishnarajanagar taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally health. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. Transplantation of paddy under Nala and tank atchkat is reported to be in progress. It is reported that the standing crop of sugarcane in Visvesvaraya Canal area is in good condition and the previous year's sugarcane crop is under harvest in Mandya, Maddur and Pandavapura Taluks. The kar-paddy in Malvalli taluk is reported to be under harvest. The standing crop of ragi and other dry crops are reported to be withering for want of rains.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be good throughout the District, except for the prevalence of Cholera in certain villages of Mandya and Maddur taluks and in Malvalli Town and small-pox in Gamanahalli village of Srirangapatna Taluk. Preventive measures are reported to be taken to check the spread of the epidemic. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities in all the taluks.

HASSAN.

8. Well supplied.

9. Agricultural operations are still in progress. Transplantation of paddy and dodda ragi is in progress. In Channarayapatna, Arsikere, Belur and Arkalgud the paddy and ragi crops are reported to be not good due to failure of rains.

10. Prospects of the season are fairly satisfactory. Rainfall is needed throughout the District for paddy and ragi crops.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Sowing of paddy in Shimoga and Bhadravati Taluks and sowing of ragi in Chennagiri and Shikarpur Taluks were completed. Horsegram was sown in Shikarpur Taluk. Horsegram and navane were sown in Honnali Taluk—Transplantation of paddy crop was going on in Sagar, Hosanagar and Thirthahalli Taluks.

The standing crop was generally good, but there was need for rainfall for the standing crops in Shimoga, Honnali, Shikarpur and Bhadravati Taluks.

The paddy crop in Thirthahalli Taluk was affected by a kind of pest. The groundnut crop in Honnali Taluk suffered from 'Seederoga'. Preventive measures were taken.

10. Prospect of the season was generally good in all the taluks except in Honnali and Bhadravati Taluks where the standing crop is in need of rains. Rainfall is needed for the paddy crop in Shimoga Taluk also. Rainfall was insufficient in a few villages of Shikarpur Taluk.

There was prevalence of Cholera in Honnali and Bhadravati Taluks and there was ratfall in a village in Channagiri Taluk. Preventive measures were taken.

11. Cattle were healthy in all the taluks except in Sagar Taluk where there was prevalence of rinderpest among the cattle of Hirenellur Village of the taluk. The Assistant Director of Animal Husbandry Service, Shimoga was requested to take preventive measures. Water and Fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. But the prices were very high.

9. (1) *Standing crops.*—Sugarcane and coffee in Chikmagalur Taluk, ragi, jola, paddy, coriander, cotton, til, and groundnut in Kadur and Tarikere Taluks, sugarcane, and paddy in Narasimharajpura Sub-Taluk, were the Standing Crops. Rains are urgently needed for the standing crops. Paddy crops was effected with Pest in Nelagadde and other villages in Narasimharajapura Sub-Taluk.

(2) *Seeds sown and Transplantation made.*—Transplanting of paddy in Chikmagalur Taluk was being done. Planting of ragi was held up in some parts of Tarikere Taluk for want of rains.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be generally good. Rains are wanted for the standing crops throughout the District, particularly in Kadur, Tarikere Taluks for the crops. It was reported that there were 5 deaths on account of Cholera in Y. Mallapura Village, Yegati Hobli of Kadur Taluk and the Health Department is being requested to take necessary preventive measures.

11. Cattle were generally healthy except for Rinderpest among Cattle in Bettagere Village, Mudigere Taluk. Water and fodder were available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds sown.*—Nil.

Standing crops.—The standing crops such as jola, ragi, navane, haraka, save, sajje, oil seeds and cotton, etc., recently sown are withering for want of rains. It is reported that all these crops are in need of urgent rains.

Harvesting.—Sugarcane is being harvested in Hiriyur Taluk.

10. Cooly classes are finding sufficient labour.

Cattle are reported to be generally healthy throughout the District except prevalence of Rinderpest in Gode Village of Jagalur Taluk and in Doggalli, Amaravathi, Haralahalli, Malebennur of Harihar Taluk. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease.

Public health is generally good throughout the District. Water and fodder are available.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 9TH AUGUST 1951.

A total of 31 attacks with 16 deaths from Plague was returned from 9 villages in 6 taluks in 4 districts during the week, against 54 attacks with 15 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 4 attacks with 3 deaths and 55 attacks with 30 deaths, respectively.

A total of 11 attacks with 4 deaths from Small-pox were reported from Bangalore Corporation and from the towns of Gundlupet and Tarikere and from the taluks of Chintamani, Chamarajanagar, Gudibanda and Honnali.

Two hundred and eighty-five attacks with 139 deaths from Cholera were reported from Bangalore Corporation, Mysore City and from the towns of Honnali and Shimoga and from the Taluks of Bhadravathi, Bagepalli, Chamarajanagar, Challakere, Chitaldrug, Davangere, Goribidnur, Hiriyur, Heggaddevankote, Harihar, Kankanhalli, Krishnarajapet, Kunigal, Kadur, Krishnarajanagar, Mandya, Maddur, Malavalli, Mysore, Magadi, Ramanagaram, Shimoga, T.-Narsipur and Yelandur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 238 (122 in hospitals) for 7 days representing a calculated death-rate of 15·9 (7·7 excluding hospital deaths) per mille of population (annual basis) as against 29·0 (20·9 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Small-pox, 4 under Cholera, 1 under Malaria, 5 under Other Fevers, 38 under Dysentery and Diarrhœa and 189 under All Other Causes. The reported mortality was very very low.

The total mortality for Mysore City was 49 (19 in hospitals) for 5 days representing a calculated death-rate of 14·6 (8·9 excluding hospital deaths) per mille of population (annual basis) as against 19·8 (14·1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 3 under Cholera, 1 under Malaria, 2 under Typhoid, 7 under Other Fevers, 3 under Dysentery and Diarrhœa and 33 under All Other Causes. The reported mortality was very low.

There were 32 deaths (2 in hopitals) for 6 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 12·0 (11·3 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 3 under Other Fevers, 11 under Dysentery and Diarrhœa and 18 under All Other Causes. The reported mortality was very low.

3388 T. CHANDRSEKHARIYA, *Director.*

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

(HEALTH OF LIVE-STOCK DURING JULY 1951.)

Notification dated 17th August 1951.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Foot and Mouth, Anthrax, Contagious-goat pleuro-pneumonia, Sheep-pox, Ranikhet, Rabies and Gastro-entritis were encountered in the State during July 1951. Altogether 339 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 354 villages during the previous month. The number of outbreaks was highest in Kolar, Mysore and Tumkur Districts, while Mandya, Shimoga and Chikmagalur Districts were least affected. These diseases accounted for 1,356 animals of which 877 succumbed. The departmental staff conducted 49,003 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Three outbreaks of Rinderpest among cattle were registered in Kadur, Davangere and Hosadurga Taluks accounting for 15 attacks, of which 7 succumbed. Prompt measures of control were undertaken by the Department to check its spread and 900 cattle in the infected villages and 6,392 cattle in 21 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 93 villages resulting in 11 deaths as against 104 villages accounting for 14 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 5,573 animals as against 5,913 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

3437 P. M. NARAYANASWAMI NAIDU, *Director.*

OFFICE OF THE DIRECTOR OF INDUSTRIES AND COMMERCE IN MYSORE, BANGALORE.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and stats of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. Standing crops such as sugarcane and paddy are fairly in good condition. Groundnut is being harvested in Magadi Taluk. For ragi, thogari, avare, til and groundnut urgent rains are required in almost all taluks.

10. Public health is generally good except for the prevalence of cholera in Alur, Voddarapalya in Nelamangala Taluk and Anedoddi hamlet of Holliganahalli, Harohalli hobli, Kankanhalli Taluk. Plague is reported to be prevailing at Kempegowdanadoddy, Kasaba Hobli, Ramanagaram. Action is taken to prevent the spread of the above two diseases. Cattle are healthy.

11. Coolies find sufficient labour. Water and fodder are available.

KOLAR.

8. Moderately supplied.

9. *Seeds sown.*—Paddy is reported to have been sown in some parts of Chintamani and Srinivasapur Taluks.

(2) *Standing crops.*—Ragi, avare, thogari and horsegram are reported to be withering for want of rains. Good rains are urgently required.

(3) *Crops harvested.*—Nil.

10. There was some rainfall during the week in all the Taluks except in Goribidnur, Bagepally and Gudibanda Taluks. Fodder and water are available for cattle.

11. People and cattle are reported to be healthy but for prevalence of cholera in Malur Taluk and plague and small-pox in some parts of Mulbagal Taluk. Preventive measures have been taken to check the spread of epidemics by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Sowing operations are reported to have been held up for want of rains in some parts of the District. In Turuvekere transplanting of ragi crop has commenced.

Standing crops.—Greengram, blackgram, jola, ragi, paddy, haraka, sugarcane and thogari are reported to be in fair condition. Rain is urgently needed for the standing crops. In Tumkur, Pavagada, Sira and Chiknaikanahalli Taluks ragi crop is reported to be withering for want of rain.

10. *Crops harvested.*—Paddy in parts of Gubbi and Kunigal Taluks.

11. *Public Health.*—Public health is generally good except for the prevalence of Plague in Chiknaikanahalli Town, Kathrikahal and Janakar Villages, and rat falls in Kubarahalli and Kodigehalli villages in Chiknaikanahalli Taluk, and in Kuruvelu Village in Tumkur Taluk. Cholera is reported to be prevailing in Kunigal Town, and also at Seegepalya and Madagonahalli, hamlet villages in Kunigal Taluk and in Siddapura village in Pavagada Taluk. Needful action is reported to have been taken to check the spread of the epidemics.

Cattle.—Cattle are reported to be generally healthy except for the prevalence of Black-quarter in Harenahalli village in Gubbi Taluk, in some of the villages in Pavagada Taluk, Madhugiri Town and Jakkenahalli and Hosahalli villages in Madhugiri Taluk. Necessary measures are reported to have been taken to check the spread of the epidemics. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the Taluks of the District during the week.

Seeds sown.—It is reported that paddy was sown in Yelandur and T.-Narsipur Taluks and Ragi in Chamarajanagar Taluk. The sowing operations of Horsegram have been completed already in the Taluks of Chamarajanagar, Nanjangud, Gundlupet and T.-Narsipur. The transplantation of paddy is as usual in progress in all parts of the District.

9. *Standing crops.*—Such as paddy, ragi, avare, castor, thogari, pulses and sugarcane in almost all the taluks of the District are withering and are in need of urgent rains. In parts of Hunsur and Periyapatna Taluks the ragi crop is drying up. But the standing ragi crop in some parts of Periyapatna Taluk is affected by a kind of disease "..... ....." and worms. The Department of Agriculture has b[illegible] requested to take necessary preventive measure to check its spread. Prospects of realising the yield are remote unless immediate heavy rains set in.

10. *Crops Harvested.*—It is reported that jola is being harvested in the taluks of Mysore, Gundlupet, Nanjangud, Yelandur and in Chamarajanagar and the yield is very poor due to inadequacy of rainfall and due to attach of pest of bugs.

(1) The prospects of the season at present have not improved due to withholding of rains in almost all parts of the District.

(2) There was no rainfall in any part of the District except in Mysore, Chamarajanagar and Nanjangud Taluks where too it was insufficient. The standing ragi, paddy, pulses and cotton in almost all the taluks of this District are withering and are in need of urgent rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks and Cholera in a few villages of Mysore and Krishnarajanagar Taluks. Necessaary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available throughout the District except in parts of Periyapatna and Hunsur where there is difficulty for drinking water.

MANDYA.

8. Well supplied.

9. Transplantation of paddy under Nala and tank atchkats is reported to be in progress. Kar-paddy is being harvested in Malavalli Taluk. It is reported that the standing crop of sugarcane in Visvesvaraya Canal area is in good condition, and the previous year's sugarcane crop is under harvest. The standing ragi and other dry crops are considerably damaged for want of rains. The crops are reported to be withering for want of rain.

10. Seasonal conditions are reported to be fair.

11. Public health is reported to be generally good throughout the District, except for the prevalence of Cholera in certain villages of Maddur Taluk. Preventive measures are reported to have taken to check the spread of the epidemic. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities in all the taluks.

HASSAN.

8. Well supplied.

9. Agricultural operations are still in progress. Transplantation of paddy and doddaragi is still in progress in some parts. Broadcast paddy, ragi are reported to be withering in some parts of Hassan, Channarayapatna, Arsikere, Belur and Manjarabad Taluks. A certain disease called as Liftispa is prevailing in some parts of Arehally Hobli, Belur Taluk. The situation is causing anxiety.

10. Prospects of the season are not hopeful. Rainfal is immediately required throughout the District.

11. The cattle were generally healthy except the prevalence of Blackquarter in Kasaba Hobli, Belur Taluk.

The Veterinary Officers are requested to check the spread of the disease. Fodder was available.

SHIMOGA.

8. Well supplied.

9. Weeding operations has almost been completed in Shimoga Taluk and they are under progress in Sorab Taluk. Sowing of ragi was almost completed and sowing of Horsegram was going on in the Shikaripur Taluk. The standing crops of paddy, ragi, jola, sugarcane, cotton and groundnut are reported to be generally in good condition. The groundnut crop in Honnali Taluk was being recovered from 'Seederoga'. Rainfall is required for the standing crop in Shimoga, Honnali, Shikaripur and Bhadravati Taluks. Transplantation of paddy was going on in Sagar, Hosanagar and Bhadravati Taluks.

10. Prospect of the season was generally good. Rainfall is needed for the crops in Shimoga, Honnali, Shikaripur and Bhadravati Taluks. There was prevalence of Plague in a village of Channagiri Taluk and there was prevalence of Cholera in a village of Honnali Taluk. Preventive measures were taken.

11. Cattle were healthy in all the taluks except in Hosanagar Taluk where the cattle suffered from 'Anthrax (ಸಿಡುಬು) Preventive measures were taken. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. The prices of the commodities other than foodgrains show a tendency towards decrease as compared with the previous week's rates.

9. (1) *Standing crops.*—Coffee, paddy and sugarcane in Chikmagalur Taluk; paddy, ragi, coriander, cotton, til, avare, togari and groundnut in Kadur and Tarikere Taluks; sugarcane and paddy in Narasimharajpura Sub-Taluk; paddy in Koppa and Mudigere Taluks were the standing crops. The condition of the standing crops was causing anxiety towards the end of the week for want of rains, owing to the long duration since last rains, mainly in the maidan parts of the District.

(2) *Seeds sown and Transplantation made.*—Sowing of horsegram and transplanting of ragi in Tarikere Taluk, transplanting of paddy in Koppa Taluk were being done. Transplanting of paddy in Mudigere Taluk was completed and weed clearance work commenced.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be good. Rains are required for the standing crops in Kadur, Mudigere and in some parts of Tarikere Taluks. The rainfall figures in Mudigere, Narasimharajapura and Sringeri show that the rainfall upto the end of the week from 1st January 1951 is less than the average rainfall for the corresponding period.

The public health was generally good except for the prevalence of cholera in Mallapura village, Kadur Taluk.

11. Cattle were generally healthy except for the prevalence of Rinderpest among cattle in Bettagere village of Mudigere Taluk.

CHITALDRUG.

8. Markets are reported to be well supplied except the controlled articles.

9. *Sowing.*—Sowing of Gidda ragi in Hiriyur Taluk and paddy in Molakalmuru Taluk are reported to be in progress.

Standing crops.—Jola, ragi, navane, haraka, save, sajje, oil seeds and cotton, etc., recently sown are withering for want of rains. It is reported that these crops are in need of urgent rains.

Harvesting.—Harvesting of sugarcane in Hiriyur Taluk is reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the District.

Cattle are reported to be generally healthy throughout the District except the prevalence of Rinderpest in some parts of Challakere, Harihar and Jagalur Taluks. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease.

Public health is generally good throughout the District. Water and fodder are available.

STATEMENT SHOWING THE PRICES CURRENT (RETAIL) OF RICE (2ND SORT), RAGI AND HORSEGRAM AT THE SEVERAL TALUK HEAD QUARTERS FOR THE 33RD WEEK ENDING SATURDAY, THE 25TH AUGUST 1951.

402

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY, AUGUST 16, 1951.

A total of 30 attacks with 12 deaths from Plague was returned from 8 villages in 4 taluks in 3 districts during the week against 31 attacks with 16 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 3 attacks with 2 deaths and 51 attacks with 25 deaths, respectively.

A total of 8 attacks with 12 deaths from Small-pox were reported from the City of Bangalore and Gundlupet Town and from the taluks of Honnali, Mandya, Pandavapura, Srirangapatna and Shikaripur.

One hundred and fifty-eight attacks with 94 deaths from Cholera were reported from the Cities of Bangalore and Mysore and from the towns of Honnali and Shimoga and from the taluks of Bangalore South, Bhadravati, Chitaldrug, Chamarajanagar, Harihar, Honnali, Heggaddevankote, Koratagere, Kolar, Krishnarajapet, Kankanhalli, Krishnarajanagar, Mysore, Maddur, Malavalli, Mandya, Pavagada, Shimoga, and Srirangapatna.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 209 (52 in hospitals) for 7 days representing a calculated death-rate of 14·1 (10·5 excluding hospital deaths) per mille of population (annual basis) as against 29·2 (17·9 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Cholera, 1 under Malaria, 1 under Other Fevers, 22 under Dysentery and Diarrhœa and 184 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 59 (10 in hospitals) for 4 days representing a calculated death-rate of 21·9 (18·2 excluding hospital deaths) per mille of population (annual basis) as against 19·0 (8·5 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Malaria 1, Other Fevers 9, Dysentery and Diarrhœa 8 and All Other Causes 41. The reported mortality was very low.

There were 20 deaths (2 in hospitals) for 4 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 11·4 (10·2 excluding hospital deaths) per mille of population (annual basis) as against 10·9 (9·4 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Other Fevers, 6 under Dysentery and Diarrhœa and 13 under All Other Causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. Paddy is being transplanted in some places.
Weading of ragi is going on in Magadi Taluk.
Harvest of groundnut is going in Magadi Taluk.
Yield is poor.
Standing crops such as paddy and sugarcane are fairly in good condition but rains are required to fill up the tanks of Kankanhalli, Bangalore South and Ramanagaram Taluks.
For want of rains dry crops such as ragi, avare, thogari, etc., are withering. Sowing of horsegram is not done for want of rains. Ragi crop is much affected. Urgent rains are required in almost all the taluks.

10. Public health is generally good except for the prevalence of cholera at Anebosahalli, Maralawadi Hobli and Thimmasandra hamlet of Harohalli, both in Kankanhalli Taluk. In Nelamangala Taluk cholera is prevailing in the following villages.

Village	Attacks	Deaths	Remarks
Alur	3	2	Total inoculation is 1,761. Action is taken to prevent the spread of the disease.
Voddarapalya	2	2	
Makali	1	1	
Adakamaranahalli	2	...	
Kambasandra	2	1	
Gowdanahalli	1	...	
Bettahalli	2	1	
Total	13	7	

Cattle are generally healthy except for the prevalence of "*Narade Jadya*" at Harohalli, Anugondanahalli Hobli, Hoskote Taluk. Action is taken to prevent the spread of the disease.

11. Water and fodder are available. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Paddy is reported to have been sown in some parts of Srinivasapur Taluk.

(2) *Standing crops.*—All standing crops, *viz.*, ragi, avare, thogari, horsegram and groundnut are reported to be withering for want of rains. Rain is urgently required.

(3) *Crops harvested.*—Nil.

10. The rainfall during the week was very sparse and uneven. In Malur and Mulbagal Taluks there was litte rainfall.
Fodder and water are available for cattle.

11. People and cattle are reported to be healthy but for prevalence of cholera in some parts of Kolar and Mulbagal Taluks. Preventive measures have been taken to check the spread of the epidemic by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Sowing operations are held up for want of rains. In Turuvekere transplanting operations are reported to be in progress.
Standing crops.—Greengram, ragi, paddy, sugarcane, avare and haraka are reported to be withering for want of rains in all the parts of the District. Ryots are looking forward to the rains very anxiously. The condition of the sugarcane crop in Kunigal Taluk is reported to be fair.

10. *Crops harvested.*—Paddy is being harvested in some parts of Kunigal and Gubbi Taluks. Groundnut is some parts of the district.

11. *Public Health.*—Public health is reported to be generally good, except for the prevalence of Plague in Chiknaikanahalli Town, Tumkur Town and Kubarahalli, rat-falls at Dodrampura, Thirthapura and Halgone in Chiknaikanahalli Taluk, and prevalence of Cholera at Seegepalya hamlet villages of Huliyurdurga in Kunigal Taluk. Needful steps are reported to have been taken to check the spread of the epidemics.
Cattle.—Cattle are reported to be generally healthy throughout the district. Fodder and water are available. Scarcity of fodder is being felt in Pavagada and Sira Taluks and needful action is being taken in the matter. Labour is available for cooly classes.

MYSORE.

8 It is reported that the markets are normally well supplied in all the taluks of the District during the week.
Seeds sown.—It is reported that pulses were sown in Nanjangud Taluk. The transplantation of paddy is as usual in progress throughout the District.

9. *Standing crops.*—Such as paddy, ragi, avare, castor, thogari and cotton are urgently in need of rains in almost all taluks of the istrict. The standing ragi crop in parts of Hunsur and Periyapatna Taluks is drying up due to withholding of rains. It is reported by the Amildar, Periyapatna Taluk that nearly 50 per cent of the standging ragi crop is affected by a disease known as "ಪೈರಿಕ್ಕೆ ರೋಗ" and that it is due to untimely and insufficient rainfall. Necessary preventive and remedial measures are being taken up to check the spread of the disease in consultation with the Agricultural Department. Prospects of realising the yield are remote unless heavy rains set in immediately.

10. *Crops harvested.*—It is reported that jola is being harvested in the taluks of Yelandur and Gundlupet Taluks and the yield is reported te be very poor due to inadequacy of rainfal and due to attack of the pest of bugs.

(1) Prospects of the season at present have not improved and are deteriorating due to withholding of rains all over the District.

(2) There was no rainfall in any park of the District except in the taluks of Mysore, Nanjangud, Hunsur, Gundlupet and T.-Narsipur, where too it was insufficient. The standing ragi, paddy, pulses, sugarcane and cotton crops in almost all parts of the District are withering and are badly in in need of rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks and Cholera in a few villages of Mysore and Krishnarajanagar Taluks. Necessaary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District except in some parts of Krishnarajanagar whare difficulty for fodder is reported to have been felt. In parts of Hunsur and Periyapatna Taluks difficulty for drinking water is also reported to be felt.

MANDYA.

8. Well supplied.

9. Transplantation of paddy is reported tc be going on under Visvesvaraya Canal area in Pandavapura and Srirangapatna Taluks.
Kari ragi and jola are reported to be under harvest in Krishnarajapet Taluk. The standing crop of sugarcane in Visvesvaraya Canal area is reported to be in good condition.
Standing dry crops such as ragi and other crops are reported to be withering for want of rains.

10. Prospects of the season are reported to be fair.

11. Public health is reported to be generally good throughout the district, except for the prevalence of Cholera in Niluvagilu, Thoresettihalli and Kestur villages

of Maddur Taluk and of Small-pox in Koppa, and Chikkarasinakere hoblis of Maddur Taluk. Preventive measures are reported to have been taken to check the spread of the epidemics. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities.

HASSAN.

8. Well supplied.

9. Agricultural operations are almost at a standstill. The standing crops like paddy, doddaragi, etc., are reported to be withering for want of rains. 'Leftispa' a certain disease is reported to be prevailing in some parts of Belur Taluk, 'Katteroga' disease and a new kind of disease called 'Gall-fly' is prevailing in parts of Kasaba and Hethur hoblis of Manjarabad Taluk. The Agricultural Department has been addressed.

10. There has been insufficient rains throught the district. This is causing anxiety as the standing crops are withering away.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Weeding operation has almost been completed in Shikaripur Taluk and was in progress in the Taluk of Sorab. Horsegram was sown in Shikaripur Taluk. Transplantation of paddy was going on in Hosnagar and Bhadravati Taluks and it was held up in certain parts of Tirthahalli Taluk for want of rains. The standing crop of paddy, sugarcane, jola, ragi and groundnut are reported to be generally in fair condition. But rainfall is urgently required for the standing crops in almost all the taluks in the district. The growth of the crop in Sagar Taluk is stunted for want of rains. The crops in Honnali and Shikaripur Taluks are reported to be withering for want of rains. The cotton crop in Chennagiri Taluk suffered from a kind of pest. Preventive measures were taken.

10. Prospect of the season was generally fair. But rainfall is required for the standing crops in almost all the taluks in the district.

11. Cattle were healthy in all the taluks except in the villages of Bussanahalli in Chennagiri Taluk where they suffered from "Dommeroga" and "Galaleroga". Preventive measures were taken. Fodder and water were available.

CHIKMAGALUR.

8. Fairly well supplied. Prices were high.

9. (1) *Standing crops.*—Paddy, ragi, sugarcane and coffee in Chikmagalur Taluk; jola, coriander, ragi, save, navane, soji, thogari, sugarcane and til in Kadur Taluk; paddy, ragi, jola, groundnut, corriander, greengram, blackgram, til, avare, wheat, sugarcane and horsegram in Tarikere Taluk; sugarcane and paddy in Narasimharajpura Sub-Taluk were the standing crops. Rains were badly needed for the standing crops in almost all the taluks. Crops were withering for want of rains.

(2) *Seeds sown and Transplantation made.*—Paddy transplantation in Chikmagalur Taluk was under progress. Weed clearance work was being done in Mudgere Taluk. Transplanting of paddy in Sringeri was completed.

(3) *Crops harvested*—Nil.

10. Prospects of the season are reported to be generally good. Rains are very badly required for the standing crops in both the Malnad and Maidan Taluks of the District. The rainfall during the week was very negligible, and is causing anxiety among raiyat classes, as the standing crops are depending on the rains. The prospects of the season appear to be gloomy on this account. Public health was generally good.

11. Cattle were generally healthy except for the prevalence of Gastero-enterities in Bettagere village of Mudgere Taluk.

CHITADDRUG—Not Received.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore,
Dated 4th September 1951.

K. SRINIVASAN,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

409

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 23RD AUGUST 1951.

A total of 60 attacks with 19 deaths from Plague was returned from 13 villages in 7 taluks in 4 districts during the week, against 30 attacks with 12 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 16 attacks with 8 deaths and 78 attacks with 37 deaths, respectively.

A total of 55 attacks with 9 deaths from Small-pox were reported from the Cities of Bangalore, Mysore and from the towns of Sagar and Shimoga and from the taluks of Bagepalli, Kunigal and Srinivasapura.

One hundred and twenty-nine attacks with 63 deaths from Cholera were reported from Cities of Bangalore and Mysore and from the towns of Chikmagalur, Honnali, Malavalli and Shimoga and from the Taluks of Bhadravati, Channapatna, Chitaldrug, Chamarajanagar, Honnali, Kadur, Kankanhalli, Kortagere, Krishnarajapet, Krishnarajanagar, Maddur, Mandya, Malavalli, Mysore, Pavagada, Sreerangapatna, Shimoga and T.-Narsipur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 247 (58 in hospitals) for 6 days representing a calculated death-rate of 18·8 (14·3 excluding hospital deaths) per mille of population (annual basis) as against 36·5 (25·4) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Malaria, 4 under Other Fevers, 24 under Dysentery and Diarrhœa and 218 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 74 (25 in hospitals) for 4 days representing a calculated death-rate of 27·2 (18·0 excluding hospital deaths) per mille of population (annual basis) as against 21·0 (10·5 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were : Small-pox 5, Cholera 1, Malaria 3, Typhoid 1, Other Fevers 1, Dysentery and Diarrhœa 4 and under All Other Causes 44. The reported mortality was low.

There were 57 deaths (5 in hopitals) for 6 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 21·3 (19·5 excluding hospital deaths) per mille of population (annual basis) as against 5·4 (4·0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 2 under Other Fevers, 19 under Dysentery and Diarrhœa and 35 under All Other Causes. The reported mortality was low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. *Agricultural operations*—Nil.

Standing crops—such as paddy and sugarcane are fairly in good condition, but more rains are required, since insufficiency of water in the tanks on account of failure of rains. Ragi, thogari, avare, etc, have been very much affected for want of rains. Sugarcane also has suffered in Nelamangala Taluk. The recent showers are of very little help to dry crops since they had withered very much in some parts of the District.

10. Public health is generally good except for the prevalence of cholera in Dasanpura and some villages of Kasaba Hobli, Nelamangala Taluk. No fresh attacks and deaths. Action is taken to prevent the spread of the above disease. Cattle are reported to be healthy. Pasturage is scarce in Dodballapur Taluk on account of failure of rains. In other places fodder is available.

11. Drinking Water is available. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Nil.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram and groundnut are reported to be withering for want of rains.

(3) *Crops harvested.*—Nil.

10. There was isolated rainfall during the week in Malur, Bagepally and Gudibanda Taluks. Fodder and water are available for cattle.

11. People and cattle are reported to be generally healthy but for prevalence of plague in Somayajalapalli, Srinivasapur Taluk. Preventive measures have been taken to check the spread of the epidemic by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Sowing of Horsegram is held up for want of rains In Turuvekere transplantation of Ragi has become slow for want of rains.

Standing crops.—Ragi, jola, avare, thogari, etc., are withering for want of rains, except paddy crop under some of the tanks where some water is available. Raiyats are anxiously looking forward for rains.

Crops harvested.—Yada Ragi is being harvested in some parts of Sira Taluk in Hulikunte and Gowdagere Circles. Groundnut in parts of Chicknaikananalli Taluk. Paddy in parts of Kunigal and Gubbi Taluks.

10 *Public Health.*—Public health is generally good, except for the prevalence of plague in Yalanadu, Kathrekal and Janehar villages in Chicknaikanahalli Taluk, and plague in Chicknaikanahalli and Tumkur Towns. Needful steps have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Anthrax in Tumkur Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Scarcity of fodder is being felt in parts of Pavagada and Sira Taluks, and action has been taken in allowing free grazing in State Forests. Water is available.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that the horsegram was sown in the Taluks of Mysore, Nanjangud, Heggaddevankote and Chamarajanagar; and ragi in Chamarajanagar Taluk.

9. *Standing crops.*—Such as paddy, ragi, avare, pulses, cotton, sugarcane and castor, are urgently in need of rains in almost all taluks of the District. The standing dry crops are withering for want of rains. In parts of Hunsur and Periyapatna Taluks, ragi crop has been affected by a kind of disease known as 'Redrot' and that it is due to untimely and insufficient rains. Department of Agriculture are taking necessary preventive and remedial measures to check the spread of the disease. The paddy crop under Malegere, Honganur, Hirekere and Kudlur Doddarayapet tanks and under Melmala atchkat in Chamarajanagar Taluk is withering for want of water in the tanks. Crop under Chamarajasagar in Hampapur, Krishnarajanagar Taluk is drying. It is reported by the Amildar, Nanjangud Taluk that Narasambhudi tank has no water and that Kalale and Halepura tanks have got water just to suffice for two months and one month, respectively.

10. *Crops harvested.*—It is reported that jola is being harvested in the taluks of Mysore, Yelandur and Gundlupet; and kar ragi in some parts of Hunsur and Periyapatna Taluks

(1) Prospects of the season have not improved and are deteriorating due to withholding of rains all over the District. Seasonal conditions on the whole are not satisfactory.

(2) There was no rainfall in any part of the District during the week. The standing crops such as ragi, pulses and castor are withering and they are badly in need of rains all over the District.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks and Cholera in a few villages of Krishnarajanagar and Mysore Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District except in parts of Hunsur and Periyapatna Taluks where difficult for water both for men and cattle is also reported to have been felt to some extent.

MANDYA.

8. Well supplied.

9. Transplantation of paddy is reported to be going on in Malavalli and Srirangapatna Taluks, under tank and nala atchkats. Kar paddy is reported to be under harvest in certain parts of Malavalli Taluk. The standing crop of sugarcane in Visvesvaraya Canal area is reported to be good but requiring rains. The condition of standing dry crops such as ragi and other dry crops is reported to be causing anxiety for want of rains. They are reported to be withering.

10. Since there has been failure of rainfall, the seasonal conditions are causing anxiety.

11. Public health is reported to be generally good throughout the District. Prevalence of any epidemic diseases has not been reported from any of the Taluks. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities.

HASSAN.

8. Well supplied.

9. The standing crops are very badly in need of rains. They are reported to be withering.

10. Prospects of the season are not hopeful.

11 The cattle were generally healthy except the prevalence of black-quarter in some parts of Channarayapatna. The Veterinary Officers are requested to take preventive measures. Fodder available.

8. Well supplied.

9. Horsegram was being sown in Shikaripur Taluk, Transplantation of paddy was completed in Sagar, Hosanagar, Thirthahalli and Bhadravathi Taluks. Weeding operations were almost completed in Shikaripur and Sorab Taluks.

The standing crop is generally fair but is urgently in need of rainfall. Paddy crop in channel areas is good but the rainfed crop and the dry crops are in need of urgent rainfall. Some of the ragi and groundnuts crops in Honnali Taluk withered and the crops in some other parts of the taluk are reported to have begun to wither for want of rains. The paddy and sugarcane crops in Sagar Taluk are reported to have begun to wither for want of rains. In general immediate rainfall is required for improving the standing crops.

10. Prospect of the season was generally fair. But the rainfall is very urgently needed for the standing crops especially for the dry and rainfed crops.

11. Cattle were healthy in all the taluks except in Hosanagar Taluk where they suffered from cattle diseas preventive measures are reported to have been taken.

Fodder and water were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices of food grains were very high.

9. (1) *Standing crops.*—Paddy, sugarcane and coffee in Chikmagalur Taluk; ragi, jola, sugarcane, coriander, save, togari, avare, til, and groundnut in Kadur Taluk, paddy, ragi, jola, groundnut, til, coriander, greengram, blackgram, avare, wheat, sugarcane, horsegram in Tarikere Taluk, sugarcane and paddy in Narasimharajapura sub-taluk and paddy in Koppa, Mudigere and Sringeri, were the standing crops. Rains are badly needed for the standing crops especially in Kadur, Tarikere and Mudigere Taluks. Crops were withering for want of rains in almost all the parts of the District.

(2) *Seeds sown and transplantation made.*—Transplantation of Paddy in Chikmagalur and Koppa and Mudgere has been completed.

(3) *Crops harvested*—The harvesting of gidda ragi in Chickmagalur Taluk has been completed.

10. Prospects of the season are reported to be not favourable owing to the non-receipt of rainfall for the last 2 weeks. Rains are badly needed for the standing crops in the maidan as well as malnad parts of the District. Dry crops are reported to be withering for want of rains in Kadur and Tarikere Taluks.

11. Public Health was generally good. Cattle were generally healthy except in Bettgere, Owsana and Halike villages of Mudigere Taluk, where the cattle disease "Gasteroenterities" prevailed among the cattle. The Department of Animal Husbandry has been requested to take necessary preventive measures.

CHITALDRUG.

8. Markets are reported to be well supplied except the controlled articles.

9. *Sowing.*—Transplantation of paddy and sowing of navane and horsegram in some parts of Molakalmuru Taluk are reported to be in progress.

Standing crops.—Jola, sajji, ragi, groundnut and paddy in Hiriyur Taluk are reported to be good in channel area. Jola, ragi, sajji, groundnut in Chitaldrug Taluk. Groundnut, til, and sajji, paddy, navane, ragi, jola, horsegram in Davangere Taluk, til, groundnut, jola, ragi and oil seeds in Hosadurga Taluk, ragi, jola, navane and cotton in Harihar Taluk are reported to be generally withering for want of rains. Navane, jola, til, groundnut, sajji, ragi is reported to be fairly in good condition in Pallagatta and Bilichodu circles and the crops in kasaba circle is reported to be withering for want of rains in Jagalur Taluk. Where facilities for lift irrigation exist, Doddaragi and Paddy are reported to be in good Condition in Challakere Taluk.

Harvesting.—Harvesting of groundnut and til in Hosadurga Taluk are reported to be in progress.

10. Coolies are finding sufficient labour throughout the District except in some parts of Molakalmuru Taluk due to failure of rains.

Cattle are reported to be generally healthy throughout the District except for the prevalence of Blackquarter disease in some parts of Challakere Taluk, Sanikere Circle. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease. Public health is generally good throughout the District.

Water is available throu ghout the District except in Sreerampura village in Hosad urga Taluk where scarcity of water is reported.

Fodder is available throughout the District except in some parts of Molakalmuru Taluk where scarcity of fodder is reported.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY, AUGUST 30, 1951.

A total of 27 attacks with 7 deaths from Plague was returned from 11 villages in 8 taluks in 4 districts during the week against 60 attacks with 19 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 13 attacks with 4 deaths and 80 attacks with 43 deaths respectively.

A total of 10 attacks with 6 deaths from Small-pox were reported from the Cities of Bangalore, Mysore and Shimoga Town and from the taluks of Kunigal, Magadi and Srinivaspur.

One hundred and sixteen attacks with 59 deaths from Cholera were reported from the Cities of Bangalore, Mysore and from the towns of Arsikere and Srirangapatna and from the taluks of Bangalore North, Bhadravati, Harihar, Kanakanhalli, Krishnarajanagar, Maddur, Mysore, Nelamangala, Ramanagaram, Srirangapatna and T.-Narasipur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 247 (83 in hospitals) for 7 days representing a calculated death-rate of 16·2 (10·8 excluding hospital deaths) per mille of population (annual basis) as against 27·1 (18·3 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were; 1 under Cholera, 1 under Malaria, 3 under Typhoid, 1 under Other Fevers, 25 under Dysentery and Diarrhœa and 216 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 50 (10 in hospitals) for 6 days representing a calculated death-rate of 12·1 (9·7) excluding hospital deaths) per mille of population (annual basis) as against 29·6 (17·6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Small-pox 2, Malaria 4, Other Fevers 9, Dysentery and Diarrhœa 5 and All Other Causes 30. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. Transplantation of paddy is going on in Magadi Taluk. Paddy fields are being ploughed and planted in Dodballapur Taluk. All dry crops in Dodballapur Taluk are withering for want of rain. Horsegram is sown in Magadi Taluk. Harvest of groundnut is going on in Magadi Taluk. The recent showers have given life a little to dry crop in all the taluks except Dodballapur and Nelamangala Taluks. However they are not well distributed. Standing crops require more rains urgently. Water is insufficient in tanks for wet crops.

10. Public health is generally good except for the prevalence of Cholera at Dasanpura, Nelamangala Taluk. Action is taken to prevent the spread of the disease. Cattle are healthy except for the prevalence of Blackquarter in Kempa Vaderahalli, Kutagallu Hobli, Ramanagaram Taluk. Action is taken by the Veterinary Department for preventing the spread of the disease.

11. Water and fodder are available. Coolies find sufficient labour. Pasturage is scarce in Dodballapur Taluk for want of rain.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Nil.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram and groundnut. The condition of all these standing crops is improved on account of rains during the week.

(3) *Crops harvested.*—Nil.

10. There was rainfall in all the Taluks except Gudibanda and Goribidnur.

Fodder and water are available for cattle.

11. People and cattle are reported to be healthy but for prevalence of plague in some parts of Srinivasapur Taluk. Preventive measures have been taken to check the spread of the epidemic by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Transplantation of ragi is in progress in parts of Turuvekere Taluk and Chiknaikanahahalli Taluk. The recent rains were very helpful. The ryots are preparing for sowing jola and horsegram.

Standing Crops.—Ragi, avare, thogari, paddy, jola and other millets are withering for want of rains. The recent rains in Chiknaiknahalli, Gubbi Kunigal and Turuvekere Taluks were very helpful for the standing crops. More rains are necessary. Ryots are anxiously looking forward for more rains.

Harvested Produce.—Paddy in parts of Kunigal and Gubbi Taluks. Groundnut in all the parts of the District.

10. *Public Health.*—Public health is generally good, except for the prevalence of Plague in Yalanadu and Chiknaikanahalli Town and rat-falls in Huliyar village in Chiknaikanahalli Taluks and occurrence of rat-falls in Mavinakunte villages, hamlet of Bellavi in Tumkur Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Oblapura and Lingapura villages in Tumkur Taluk and Anthrax in Vaderapura in Tumkur Taluk. Scarcity of fodder was felt in Madhugiri, Pavagada and Sira Taluks, and all the State Forests in the District have been thrown open for free grazing. Water is available for men and cattle. Labour is available for agricultural classes.

8. It is reported that the markets are normally well supplied in all the taluks of this District.

Seeds sown.—It is reported that pulses and horsegram were sown in Nanjangud and Mysore Taluks.

9. *Standing crops.*—Such as paddy, ragi, avare, castor and sugarcane are urgently in need of rains. The standing dry crops are drying up for want of rains. The standing ragi crop in parts of Hunsur and in Periyapatna Taluks, has been affected by a kind of disease known as Red rot. Agricultural Department is taking immediate necessary measures to check its spread. The paddy crop under Malegere, Ramasamudra, Hondrabalu, Honganur, Mangala, and Maraga tanks in Chamarajanagar Taluk; Kalale, Narasambudi and Halepura tanks in Nanjangud Taluk is drying for want of water in tanks. The lands under Nugu L.B. Channel between 10th and 13th mile in Nanjangud Taluk are under dry crops and the ryots are not willing to utilise water for wet crops since they are not sure of water supply in the said channel throughout the season and paddy in about 200 acres under R.B. Channel is withering for want of adequate water supply. The Public Works Department is being addressed to restrict water supply up to 10th of L.B. Channel and to allow more water to the withering crops in the lands under R.B. Channel as it is not possible to grow paddy in the tract between 10th and 13th mile of L.B. Channel.

10. *Crops harvested.*—It is reported that jola is being harvested in Yelandur and Gundlupet Taluks; and kar ragi in Nanjangud, Heggaddevankote, Hunsur and Krishna rajanagar Taluks and the yield is reported to be very poor due to inadequacy of rainfall.

(1) Prospects of the season have not showed any signs of improvement though there was some rainfall during the latter part of the week in almost all the taluks of the District except in Heggadadevankote and Nanjangud Taluks. The rainfall in all the taluks of the District is reported to be insufficient.

(2) Sufficient quantities of food grains are made available all over the District.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks and Cholera in a few villages of Mysore Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District except in parts of Periyapatna Taluk where difficulty for water both for men and cattle is reported to have been felt to some extent.

MANDYA.

8. Well supplied.

9. Transplantation of paddy in the Malavalli Taluk is reported to be under progress. The sowing operations of dry crops could not be continued for want of rains. The standing crops of sugarcane in Visvesvaraya Canal area is reported to be good. The condition of the standing crops such as ragi, etc., is reported to be bad. The dry crops have partially dried up in large extents throughout the district. The late rains on the 15th instant in all the taluks is reported to be very helpful for the standing crops.

10. The seasonal conditions are causing anxiety on account of the failure of timely rains.

11. The public health is reported to be generally good throughout the District. Cattle are reported to be healthy. Water and fodder are reported to be available in all the taluks of the district in sufficient quantities.

HASSAN.

8. Well supplied.

9. Agricultural operations regarding the sowing of paddy and ragi are over. Standing crops such as paddy in tank bed areas and dodda ragi are withering. The recent rains gave some life to the dying plants of paddy and ragi. Giddaragi is being harvested. The yield is very poor.

10. Rainfall is insufficient throughout the District and is very badly needed for the withering crops. The seasonal conditions though show sign of improvements are still causing anxiety.

11. Cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. The weeding operation was almost completed in Shikaripur and Sorab Taluks. Horsegram was sown in Shikaripur Taluk.

The standing crops, especially rainfed wet crops and dry crops are urgently in need of rainfall. The crops in many parts of the District are withering for want of rains. There was paddy post in Sorab Taluk Preventive measures were taken.

10. Prospect of the season was generally fair, but immediate rainfall is required for the standing crops many of which have begun to wither on account of continued absence of sufficient rainfall for the past few weeks.

11. Cattle were healthy in all the taluks except in Sagar Taluk where they suffered from Rinderpest. Preventive measures are reported to have been taken. Fodder and water were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. The price of food grains were high.

9. (1) *Standing crops.*—Paddy and sugarcane in Chikmagalur Taluk and Narasimharajapura Sub-Taluk; jola, ragi, paddy, sugarcane, coriander, til, avare, groundnut and cotton in Kadur Taluk; paddy, ragi, jola, coriander, groundnut, green-gram, blackgram, til, avare, wheat, sugarcane and horsegram in Tarikere Taluk; paddy in Mudigere, Koppa and Sringeri Taluks were the standing crops. Crops were withering in Chikmagalur, Kadur, Tarikere and Mudigere Taluks for want of rains. It was reported that a kind of peculiar weed was shooting up in paddy plants retarding its growth and yield in Mudigere Taluk.

(2) *Seeds sown and transplantation made.*—Nil.

(3) *Crops harvested.*—Jola and coriander in Kadur Taluk; groundnut in Tarikere, were being harvested and for want of rains, only part of the nuts come out of hard soil.

10. Prospects of the season are reported to be not satisfactory for want of timely rains; standing crops were withering in many taluks and the yield of ragi crop in Chikmagalur Taluk is reported to be very low for want of rains. Tanks in Tarikere Taluk are not completely filled with water.

11. Public Health was reported to be generally good. Cattle were generally healthy except for the prevalence of "Gastero-enterities" in the villages of Bettageri, Onsana and Halike of Mudigere Taluk. It was reported that there was some scarcity of fodder in Kadur Taluk and fodder was available in other parts of the District.

CHITALDRUG.

8. Markets are reported to be well supplied except the controlled articles.

9. *Sowing.*—Sowing of cotton and navane in Muddapura Circle, Chitaldrug Taluk is reported to be in progress.

Standing crops.—Standing crops of jola, ragi, sajje, navane, sugarcane, groundnut, til, haraka, save and cotton which has been recently sown are withering for want of urgent rains. Ragi, jola, paddy, sugarcane are in good condition in places where facilities for lift irrigation exist in Hiriyur, Molakalmuru and Challakere Taluks.

Harvesting.—Harvesting of til and groundnut in some parts of Davangere and Hosadurga Taluks are reported to be in progress.

10. Cooly classes are finding sufficient labour except in some villages of Molakalmuru Taluk.

Cattle are reported to be generally healthy throughout the District except for the prevalence of "Blackquarter" disease in Gowripura in Mallenahalli Circle, Challakere Taluk. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of disease. Public health is generally good except for the prevalence of cholera in some parts of Harihar Taluk. The District Health Officer is reported to have been addressed for taking immediate steps to check the spread of the disease.

919

11. Fodder is available throughout the District except in some parts of Chitaldrug and Molakalmuru Taluks where scarcity of fodder is reported.

Water is available throughout the District except in Sreerampura, Hosadurga Taluk, where scarcity of water is reported.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore,
Dated 18th September 1951

K. SRINIVASAN,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

420

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 6TH SEPTEMBER 1951.

A total of 48 attacks with 18 deaths from Plague was returned from 8 villages in 4 taluks in 3 districts during the week, against 27 attacks with 7 deaths in the previous week. The Cities of Bangalore and Kolar Gold Field reported free from Plague. The Mysore City reported 1 attack with nil death. Comparative figures for the corresponding week in 1950 and 1949 were 3 attacks with nil death and 53 attacks with 23 deaths, respectively.

A total of 16 attacks with 7 deaths from Small-pox were reported from Mysore City and from the taluks of Bagepalli, Koratagere, Magadi, and Maddur.

Nineteen attacks with 9 deaths from Cholera were reported from Cities of Bangalore and Mysore and Shimoga Town and from the Taluks of Chikmagalur, Davangere, Harihar, Kolar, Nelamangala, Ramanagaram and T.-Narasipur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 217 (66 in hospitals) for 7 days representing a calculated death-rate of 14·3 (9·9 excluding hospital deaths) per mille of population (annual basis) as against 25·8 (17·8) for the corresponding week of last year. Classified according to causes, the deaths numbered 5 under Typhoid, 7 under Other Fevers, 29 under Dysentery and Diarrhœa and 176 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 57 (18 in hospitals) for 4 days representing a calculated death-rate of 21·0 (14·3 excluding hospital deaths) per mille of population (annual basis) as against 19·5 (4·8 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 2 under Small-pox, 2 under Cholera, 2 under Typhoid, 6 under Other Fevers 7 under Dysentery and Diarrhœa and 38 under All Other Causes. The reported mortality was very low.

There were 25 deaths (2 in hopitals) for 6 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 9·3 (8·6 excluding hospital deaths) per mille of population (annual basis) as against nil for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 1 under Other Fevers, 2 under Dysentery and Diarrhœa and 21 under All Other Causes. The reported mortality was very low.

3374 T. CHANDRASEKHARAIYA, *Director.*

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. The recent rains were of some help to the dry crops as they had withered very much. Still standing crops are badly in need of rains. Wet crops are suffering for want of sufficient water in tanks in all taluks except Channapatna and Magadi. Transplanting of paddy seedling is still going on in Bangalore North, Ramanagaram and Magadi Taluks. Groundnut is being harvested in Magadi Taluk. Rains are very late in Ramanagaram Taluk. Standing crops are good in Magadi and Channapatna Taluks. Kanva Reservoir has received 6 feet of water during the week. Urgent rains are required in almost all the taluks.

10. Prospects of the season is fair. Public health is generally good. Cattle are generally healthy. Water and fodder are available.

11. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Nil.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram, paddy and groundnut are all withering for want of rains. Even though the rainfall in Chikballapur and Sidlaghatta Taluk Headquarters was more than an inch it was not well distributed and the rainfall in Bagepally, Goribidnur and Malur was scanty and in the remaining taluks there was no rainfall at all during the week. People are anxiously awaiting rains immediately.

(3) *Crops harvested.*—Irrigated ragi raised under subsidy wells is being harvested.

10. People and cattle are reported to be healthy but for prevalence of small-pox in some parts of Mulbagal Taluk. Preventive measures have been taken to check the spread of epidemic by the Public Health Department.

11. Fodder and water are available for cattle. As an emergency measure free grazing of cattle in State Forests is being arranged.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Sowing of horsegram and jola has commenced in parts of Tumkur, Gubbi and Chiknaikanahalli Taluks. The recent rains were helpful. Transplantation of paddy under Mayasandra Tank in Turuvekere Taluk is in progress.

Standing Crops.—Ragi, avare, thogari, groundnut and jola are reported to be fair on account of recent rains. Paddy and sugarcane are also reported to be fair in parts of Chiknaikanahalli, Kunigal, Gubbi and Tumkur Taluks. The crops are still in need of more rains.

Crops Harvested.—Paddy in Gubbi and Kunigal Taluks; and groundnut in parts of Chiknaikanahalli Taluk.

10. *Public Health.*—Public health is generally good, except for the prevalence of small-pox in Bidarakatte Village and a suspected case of plague in Mavukere in Tumkur Taluk. Plague is reported to have subsided in Chiknayakanahalli and Yelanadu Villages in Chiknayakanahalli Taluk. Preventive measures are reported to have been taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Sirodada of Kallambella Hobli in Sira Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Water and fodder are available and labour is available for the cooly classes. The recent rains have eased the situation to some extent.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that horsegram was sown in Mysore, Hunsur, Heggadadevankote and Chamarajanagar taluks and pulses in Mysore, Periyapatna and Nanjangud taluks.

9. *Standing crops.*—Such as paddy, ragi, avare, cas tor, cotton, groundnut and sugarcane in all the Taluks ofrthe District except in Heggadadevakote, Chamarajanagar, Hunsur and Periyapatna taluks are showing signs of improvement due to recent rains. Ragi crop in parts of Hunsur Taluk is reported to have been affected by webbing caterpillar. The Agricultural Department has been requested to take immediate necessary measures to check its spread. The rains fed paddy crop in the taluks of Heggadadevankot and Periyapatna failed on account of continued draught.

10. *Crops harvested.*—It is reported that kar-ragi is being harvested in the taluks of Nanjangud, Periyapatna and Hunsur Taluks and jola in Gundlupet Taluk. Inadequate water supply in Nugu old R.B. Channel is stated to be not due to the opening of the L.B. Channel but is attributed to the low level of water in the river. Condition is stated to improve with the rise of water level in the river.

(1) Prospects of the season are improving in all the taluks of the District due to recent rains.

(2) There was fairly good rainfall in all the taluks of the District except in Chamarajanagar, Hunsur and Heggadadevankote Taluks.

(3) Sufficient quantities of food grains are made available all over the District.

(4) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggadevankote, Nanjangud and Gundlupet Taluks and Cholera in a few villages of Mysore Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. Transplantation of paddy in Malavalli Taluk is reported to be under progress. The sowing operation in respect of dry crops was taken up now in respect of the area not sown previously on account of the late rains. The standing crops of sugarcane in Visvesvaraya Canal and Transplantation paddy under Nala and Tank atchkats are reported to be good. The recent rains were helpful to the standing dry crops and paddy crops.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District. Cattle are reported to be healthy. Water and fodder are reported to be available in sufficient quantities in all the Taluks of the District.

HASSAN.

8. Well supplied.

9. Agricultural operations regarding sowing and planting of paddy and ragi are over. There had been some rain throughout the District and this has improved the condition of the standing crops of paddy and ragi. Kolve Roga and Katte Roga are reported to be previling in some parts of Hassan and Manjarabad Taluks.

10. Rainfall is still required for paddy and doddaragi. Seasonal conditions are showing signs of improvement.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Ragi in Shikaripur Taluk and ground-nut and Save in Channagiri Taluk were being harvested. The recent rani-fall has improved the conditions of the Jola crop in.

Honnali Taluk but the Ragi crop of the taluk is reported to be bad in many parts. The standing crop, of paddy in Sorab and Hosanagar Taluks, is reported to be withering for want of rains. Though there was some rainfall during the week it was not sufficient in almost all the taluks. Further adequate and urgent rainfall is needed for improving the condition of the crops.

Transplantation of paddy was going on in Bhadravathi Taluk. Paddy crop in Sorab and Thirthahalli Taluks suffered from pests. Preventive measures were taken.

10. Prospect of the season was generally fair. Though the recent rainfall has improved the condition of Jola crop in Honnali Taluk and the condition of the standing crops in Channagiri Taluk. Further adequate rainfall is required urgently for the standing crops in almost all the taluks in the District.

11. Cattle were healthy. Water and Fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. The prices of the food grains continued to be high.

9. (1) *Standing crops.*—Paddy, ragi and sugarcane in Chikmagalur Taluk, ragi, jola, paddy, sugarcane, groundnut, cotton, avare, horsegram and togari in Kadur and Tarikere Taluks, paddy, in Koppa, Mudigere Taluks, sugarcane and paddy in Narasimharajapura Sub-Taluk were the standing crops. Standing dry crops in Tarikere, Mudigere and Koppa are still in need of rains. Paddy crop in Mudigere Taluk is affected with "Leptispa" pest.

(2) *Seeds sown and transplantation made.*—Coriander, jola, and horsegram were being sown in Kadur Taluk.

(3) *Crops harvested.*—Groundnut and til in Tarikere Taluk were being harvested.

10. *Prospects of the season* :—Are reported to be slightly better than that of last week on account of recent showers. Still it is not sufficient to the standing crops in many taluks which require further rains. Tanks in Tarikere Taluk are not yet completely filled with water. The wet crops on makki lands require incessant rainfall during the coming days.

11. Public Health was reported to be generally good during the week under report. Cattle were generally healthy except in the villages of Bettagere, Halike and Owsana where there was prevalence of "Gastero-enterities" disease among the cattle.

CHITALDRUG.

8. Markets are reported to be well supplied except the controlled articles.

9. *Sowing.*—Sowing of Cotton, and Navane, Horsegram and Bilijola in Molakalmuru Taluk, Bilijola in Chitaldrug Taluk are reported to be in progress.

Standing crops.—Jola, Ragi, Haraka, Save, Sajje, Groundnut, Sugarcane, Paddy, Cotton, Doddaragi and oil seeds are reported to be improving due to recent rains.

Harvesting.—Harvesting of Til and Groundnut in Davangere and Hosadurga Taluks and Navane in Chitaldrug Taluk are reported to be in progress.

10. Coolie classes are finding sufficient labour throughout the District.

Cattle are reported to be generally healthy throughout the District.

Public health is generally good except the prevalence of Cholera in some parts of Harihar Taluk.

11. Fodder is available throughout the District except in some parts of Challakere and Molakalmuru Taluks where scarcity of fodder is reported.

Water is available throughout the District except in some parts of Challakere Taluk, where scarcity of water is reported.
